

# Composting Services

Interested in fighting climate change in your kitchen? Let's get composting! By collecting plant based food waste you can reduce CO2 emissions and fight climate change. UWL Sustainability offers tips on getting started and place to drop it off. **Follow the instruction below to get started.**

## Step 1: Sign Up

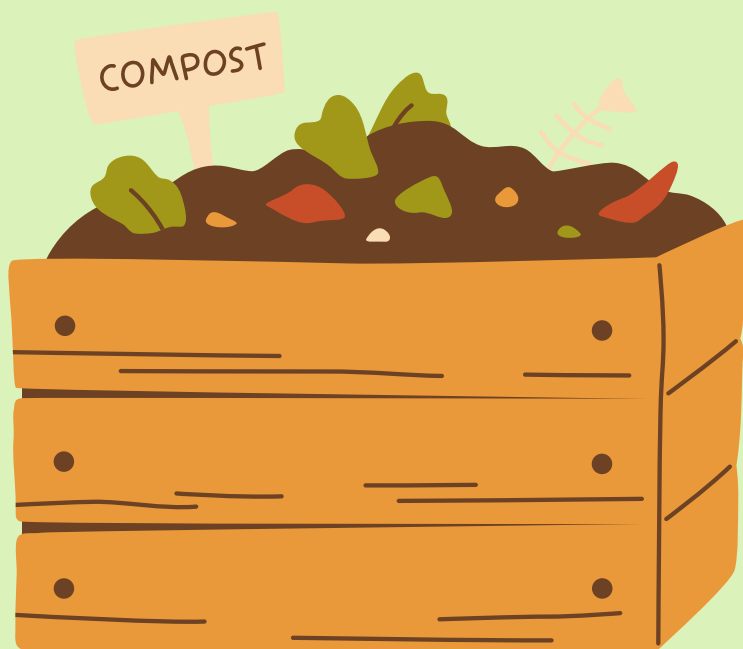

## Step 2: Get Instructions

You will receive a follow up email with specific instructions about acceptable food waste and where to drop it off.

## Step 3: Get Composting

Start collecting your compost and help the fight against climate change!

Interested but don't know where to start? No worries! Reach out to us at [sustainability@uwlax.edu](mailto:sustainability@uwlax.edu) or via Instagram [@uwlsustainability](https://www.instagram.com/uwlsustainability). We want to help get you started!
