## How to Use Design Generator Ideas in PowerPoint

**STEP 1:** Write out some of your points for discussion that you will be addressing.

This slide lacks creativity and will not impress your audience

STEP 2: Locate the design tab at the top of the screen. Then, go to the right side and find design ideas.

STEP 3: Find a design template that you would like to use.

STEP 4: You are ready to go! You now have a creative design that makes your presentation look clean and neat!
